

## Online Energy Information System Online Profile Request Form

---

The Internet-based Energy Information System from Michigan Gas Utilities was designed for our customers with Gas Transportation Service. Using this system, you can access natural gas information that's critical to managing your energy supply and your operations. The online Energy Information System is located at:

<http://www.michigangasutilities.com/business/eis.aspx>

To set up an Online Profile and use the Energy Information System, please mail or fax this completed form to your Michigan Gas Utilities Account Representative. Allow 3-5 business days for your representative to provide you with a username and password.

*Please note that any username and password combination that remains inactive for six months will be deleted*
